What Are Cookies

Cookies are small pieces of data stored in text files saved on your mobile device or computer when you visit a website. Cookies allow the website's server to record and store your actions and preferences, such as login information, user history, language settings, font settings, colour settings, and other display preferences, over a particular period.

Cookies ensure visitors do not have to continuously re-enter their details or information whenever they revisit the site or surf between pages.

Cookies are used to remember your preferences for single visits through sessional cookies or multiple repeat visits through permanent cookies.

How We Use Cookies

Cookies are essential for our website to function optimally and enhance website performance for a better user experience. The website administrator(s) controls all cookies used on the site and grants third parties access for statistics and analytics purposes.

How to Control Cookies

Disabling Cookies

You can disable cookies setting by adjusting the option on your browser settings (see your browser "Help" for more details). However, please be aware that the act of disabling cookies will affect your visit's functionality and the use of this website and many others. Disabling cookies will usually result in also disabling certain functionality and features of this site. In most cases, there are no website standard options for disabling cookies without completely disabling the functionality and features they add to the site. It is recommended that you enable cookies for optimal site functionality and service.
